

Service Mesh + Istio = Vida

George Tavares

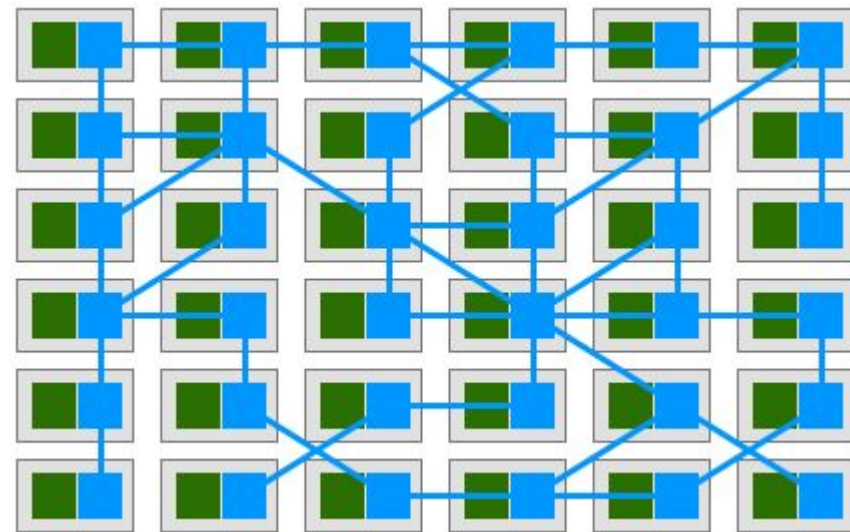

Arquiteto de Software - Softplan - UNJ - PJ

Istio provê uma infraestrutura para para tratar o acoplamento de microserviços, para simplificar seu gerenciamento e administração. Ele provê as seguintes funcionalidades na rede de microserviços:

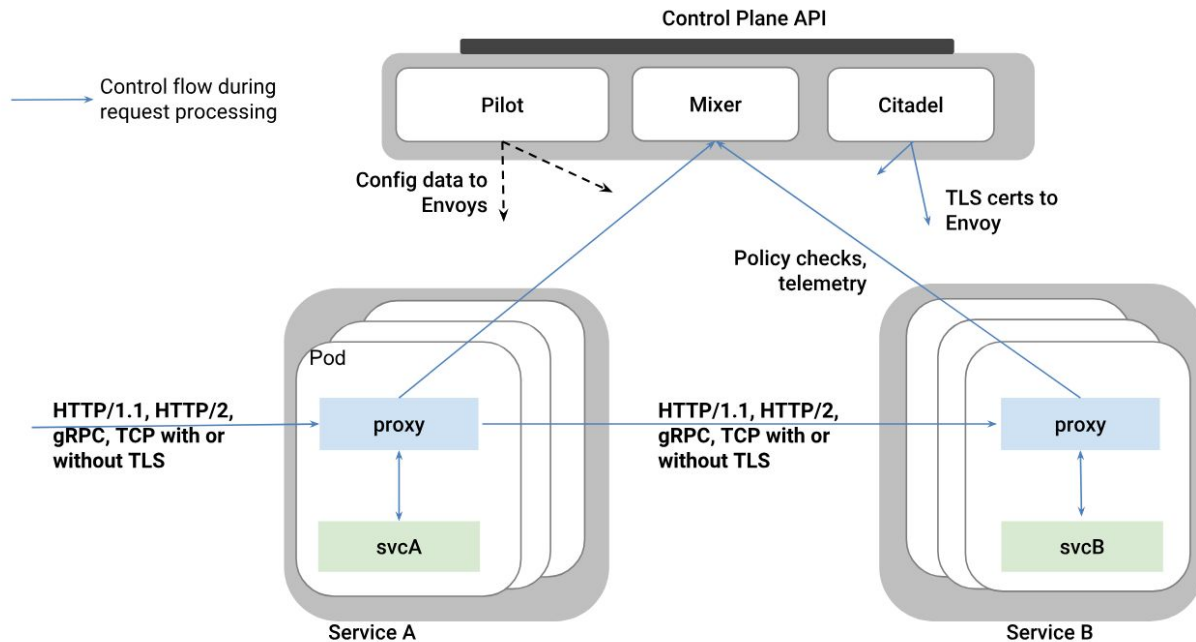

1. Gerenciamento de tráfego
2. Serviço de identidade e segurança
3. Restrições de políticas
4. Telemetria
